

MAMMALS vs BIRDS

1. They are vertebrates.

☐	Mammals	☐	Birds	☐	Both
--------------------------	---------	--------------------------	-------	--------------------------	------

2. They have feathers.

☐	Mammals	☐	Birds	☐	Both
--------------------------	---------	--------------------------	-------	--------------------------	------

3. Their bodies are covered with fur or hair.

☐	Mammals	☐	Birds	☐	Both
--------------------------	---------	--------------------------	-------	--------------------------	------

4. They use their lungs to breathe.

☐	Mammals	☐	Birds	☐	Both
--------------------------	---------	--------------------------	-------	--------------------------	------

5. They have wings.

☐	Mammals	☐	Birds	☐	Both
--------------------------	---------	--------------------------	-------	--------------------------	------

6. They need food and water.

☐	Mammals	☐	Birds	☐	Both
--------------------------	---------	--------------------------	-------	--------------------------	------

7. They nurse their young with milk.

☐	Mammals	☐	Birds	☐	Both
--------------------------	---------	--------------------------	-------	--------------------------	------

8. They are warm-blooded animals.

☐	Mammals	☐	Birds	☐	Both
--------------------------	---------	--------------------------	-------	--------------------------	------

9. They have a beak and claws.

☐	Mammals	☐	Birds	☐	Both
--------------------------	---------	--------------------------	-------	--------------------------	------

10. They give birth to their young.

☐	Mammals	☐	Birds	☐	Both
--------------------------	---------	--------------------------	-------	--------------------------	------

REPTILES vs FISH

1. They are vertebrates.

☐ Reptiles

☐ Fish

☐ Both

2. Most of them have four limbs.

☐ Reptiles

☐ Fish

☐ Both

3. They have dry, rough skin.

☐ Reptiles

☐ Fish

☐ Both

4. They use their lungs to breathe.

☐ Reptiles

☐ Fish

☐ Both

5. They lay eggs.

☐ Reptiles

☐ Fish

☐ Both

6. They breathe through gills.

☐ Reptiles

☐ Fish

☐ Both

7. They have fins and scales.

☐ Reptiles

☐ Fish

☐ Both

8. They lay their eggs on land.

☐ Reptiles

☐ Fish

☐ Both

9. Most of them are carnivores.

☐ Reptiles

☐ Fish

☐ Both

10. They are cold -blooded animals.

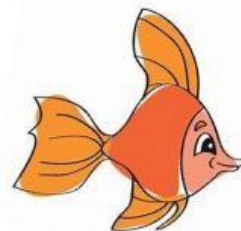

☐ Reptiles

☐ Fish

☐ Both

BIRDS vs FISH

1. They are vertebrates.

☐ Fish	☐ Birds	☐ Both
-------------------------------	--------------------------------	-------------------------------

2. They are covered with scales.

☐ Fish	☐ Birds	☐ Both
-------------------------------	--------------------------------	-------------------------------

3. They live underwater.

☐ Fish	☐ Birds	☐ Both
-------------------------------	--------------------------------	-------------------------------

4. They use their lungs to breathe.

☐ Fish	☐ Birds	☐ Both
-------------------------------	--------------------------------	-------------------------------

5. They lay eggs.

☐ Fish	☐ Birds	☐ Both
-------------------------------	--------------------------------	-------------------------------

6. They have lungs.

☐ Fish	☐ Birds	☐ Both
-------------------------------	--------------------------------	-------------------------------

7. They use their gills to breathe.

☐ Fish	☐ Birds	☐ Both
-------------------------------	--------------------------------	-------------------------------

8. They have a tail.

☐ Fish	☐ Birds	☐ Both
-------------------------------	--------------------------------	-------------------------------

9. They lay their eggs in nests.

☐ Fish	☐ Birds	☐ Both
-------------------------------	--------------------------------	-------------------------------

10. They are cold-blooded animals.

☐ Fish	☐ Birds	☐ Both
-------------------------------	--------------------------------	-------------------------------

REPTILES vs AMPHIBIANS

1. They are vertebrates.

☐	Reptiles	☐	Amphibians	☐	Both
--------------------------	----------	--------------------------	------------	--------------------------	------

2. They are covered with scales.

☐	Reptiles	☐	Amphibians	☐	Both
--------------------------	----------	--------------------------	------------	--------------------------	------

3. They have bare and moist skin.

☐	Reptiles	☐	Amphibians	☐	Both
--------------------------	----------	--------------------------	------------	--------------------------	------

4. They are born with gills and then they develop lungs.

☐	Reptiles	☐	Amphibians	☐	Both
--------------------------	----------	--------------------------	------------	--------------------------	------

5. They lay eggs.

☐	Reptiles	☐	Amphibians	☐	Both
--------------------------	----------	--------------------------	------------	--------------------------	------

6. They can breathe through the skin.

☐	Reptiles	☐	Amphibians	☐	Both
--------------------------	----------	--------------------------	------------	--------------------------	------

7. They use their gills to breathe when they are babies.

☐	Reptiles	☐	Amphibians	☐	Both
--------------------------	----------	--------------------------	------------	--------------------------	------

8. They perform metamorphosis.

☐	Reptiles	☐	Amphibians	☐	Both
--------------------------	----------	--------------------------	------------	--------------------------	------

9. They lay their eggs on land.

☐	Reptiles	☐	Amphibians	☐	Both
--------------------------	----------	--------------------------	------------	--------------------------	------

10. They are cold-blooded animals.

☐	Reptiles	☐	Amphibians	☐	Both
--------------------------	----------	--------------------------	------------	--------------------------	------
