ACTIVITY #3

READ: Lee THE FANTASTIC THREE RS. Establece la relación entre párrafos e imágenes.

The Fantastic Three Rs

It's time to start reducing your eco-footprint. You can do it by following the three Rs: Reduce, Recycle and Reuse.

- a. When you reduce, you use only what you need. Start by reducing the things you don't really need. So, stop buying on impulse. When you are shopping, try to buy food from local markets so you reduce the amount of packaging you use (you get more packaging from supermarkets). At home, you can reduce your consumption of water by taking shorter showers or recycling the water from the washing machine to flush the toilet. ☐
- b. When you recycle, you can make new products. There are a lot of materials that you can recycle if they're in good condition. It's a good idea to use plastic bottles as plant pots. You can use waste paper for your art projects. And don't forget to use the paper on both sides. To recycle, you just need some creativity. ☐
- c. There are a lot of things we can reuse. Stop buying a bottle of water every day. You can refill it from the tap in some cities and use it many times. Stop throwing away bags and clothes. Reuse the bags you have at home and give the clothes to other people. You can reuse things more than once. ☐
