My mom drives a taxi.  
It's pink, it isn't blue.  
You wave your hand,  
and she stops for you.

With its light on top,  
does her taxi stop?  
Yes, it stops at the park,  
the school, the coffee shop.

"Hello. Where to?"  
"Please drive me to the zoo."  
"Here we are."  
"That's great, thank you!"

## IV. Listen and fill in the blanks.

Here are some insects the students in Hong Kong find on their insect safari:

### Beetles

Look at the big photo. That's a beetle. It's called a lanternfly. It can \_\_\_\_\_ and \_\_\_\_\_. Its body is blue, green, orange, yellow, white, black, and red. It has six legs and a long, colorful head!

### Dragonflies

Dragonflies have six \_\_\_\_\_, too. They can fly. This dragonfly is called a blue dasher.

### Spiders

Spiders are arachnids, not insects. But this class finds spiders on their insect safari. Unlike many insects, most spiders can't fly. This spider is a golden orb-weaver. Like all spiders, it has \_\_\_\_\_ legs. Its legs are black, and its body is black and yellow. It's very big. It can eat a small \_\_\_\_\_!
