

Double Digit Addition

Five vertical addition problems are shown, each with a 100 chart grid. The grid has two columns and two rows. The top row contains the numbers to be added, and the bottom row contains the sum. A horizontal line separates the numbers from the sum. A small box with a plus sign is placed to the left of the numbers. A larger box is placed above the grid for the student to write the sum.

- Problem 1: $\begin{array}{r} 29 \\ + 41 \\ \hline \end{array}$
- Problem 2: $\begin{array}{r} 15 \\ + 27 \\ \hline \end{array}$
- Problem 3: $\begin{array}{r} 39 \\ + 22 \\ \hline \end{array}$
- Problem 4: $\begin{array}{r} 52 \\ + 38 \\ \hline \end{array}$
- Problem 5: $\begin{array}{r} 05 \\ + 87 \\ \hline \end{array}$
