Grammar

Adjectives and grades

Los adjetivos describen cualidades de sustantivos. Algunas de estas cualidades pueden variar en el grado o intensidad.

Grades of adjectives (Grados de adjetivos)

- **El grado positivo.** El grado positivo de los adjetivos es la cualidad en el grado más simple. Ejemplos: This car is **fast**. Mark is **smart**. I have a **small** house. El adjetivo usualmente se ubica antes del sustantivo: This is a **beautiful** town, sin embargo, puede ir delante de los verbos be, seem, feel, look, smell: He is **tall**. This dress looks **spectacular**.
- **El grado comparativo.** Se emplea para comparar dos o más cosas, animales o personas entre sí. Ejemplo: Jim is **taller than** John. (Jim es más alto que John).
- **El grado superlativo.** Se emplea para indicar que uno de las cosas, animales o personas comparadas, tiene una cualidad o característica en mayor medida que los demás con los que se le ha comparado. Ejemplo: Jim is **the tallest** of the class. (Jim es el más alto de la clase).
