

Effects of the Conquest!

Draw a line to match each picture on the left with its corresponding explanation on the right.

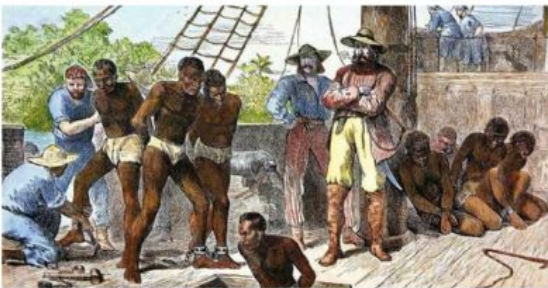

Spaniards brought **diseases** like smallpox, malaria, influenza, and measles, they devastated the indigenous peoples.

The indigenous population was **forced to work** for the new Spanish owners.

Spaniards changed some crops indigenous tribes had. They introduced **new vegetables and animals** brought from Spain.

The **slave trade** developed, as the native population died out, slaves were brought from Africa.

The indigenous were forced to **speak Spanish**.

Religion was another major tool for power; many key religious figures were sent to the Americas to evangelize the indigenous population and made them Catholics.
