

1 Hallamos la medida del angulo "x"

$x = \dots\dots\dots$

$x = \dots\dots\dots$

$x = \dots\dots\dots$

$x = \dots\dots\dots$

2 Determinemos el valor de α

$\alpha = \dots\dots\dots$

$\alpha = \dots\dots\dots$

$\alpha = \dots\dots\dots$

$\alpha = \dots\dots\dots$

3 ¿Cuál es la medida de "y"

$y = \dots\dots\dots$

$y = \dots\dots\dots$

$y = \dots\dots\dots$

4 Determinamos por el Teorema de Pitágoras la medida de "x".
