

ALGEBRA

Expressions and Equations:

Solve these equations. Use the inverse operations.

a. $x + 8 = 23$

$x = \square$

b. $14 - x = 9$

$x = \square$

PRACTICE SOLVING ONE STEP EQUATIONS

1. $x - 13 = 21$

Solve for:

Move the:

Inverse Operation:

$$\begin{array}{r} x - 13 = 21 \\ \square - \square \\ \hline x = \square \end{array}$$

Check: $x - 13 = 21$

$$\begin{array}{r} \square - 13 = 21 \\ \square = 21 \end{array}$$

2. $y + 7 = 32$

Solve for:

Move the:

Inverse operation:

$$\begin{array}{r} y + 7 = 32 \\ \square + \square \\ \hline y = \square \end{array}$$

Check: $y + 7 = 32$

$$\begin{array}{r} \square + 7 = 32 \\ \square = 32 \end{array}$$

1. $a + 4 = 10$

$a = \square$

2. $b + 6 = 19$

$b = \square$

3. $c + 3 = 24$

$c = \square$

4. $d + 12 = 35$

$d = \square$

2 STEP EQUATIONS:

Solve each equation. Check your solution.

1. $2x + 1 = 9$

2. $5b + 2 = 17$

3. $3w + 5 = 23$

4. $\frac{3}{8}n + 1 = -25$

GEOMETRY

Worksheet 1 Types of Triangles

1. Match each shape to its name. Each shape can only be matched to one name.

• Equilateral triangle

• Right-angled triangle

• Isosceles triangle

• Obtuse-angled triangle

• Acute-angled triangle

Types of Angles

Drag the names and label each type of angle.

Acute Angle

Obtuse Angle

Right Angle

Straight Angle

Reflex Angle

Complete/ Full Angle

Angle Measurements

Right angle

This is a straight angle

Hint: A right angle is 90 degrees . A straight angle is 180 degrees

Identify the measure of the missing angle. Only put the measurement of the angle in the box. Remember to email your finished paper to your teacher. You must put your name, grade, and math in the blank

Angle =

Angle =

Angle =

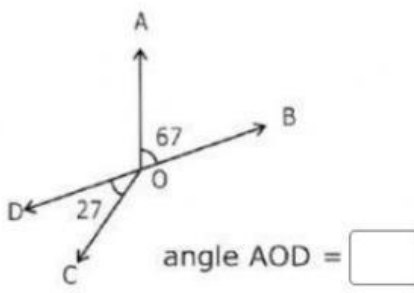

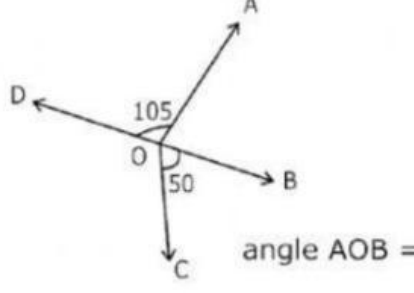

$L1 = 148^\circ$

$L2 = 32^\circ$

$L3 = \text{$

$L4 = \text{$

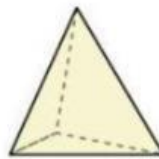

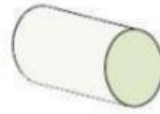

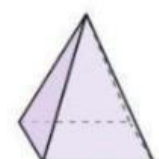

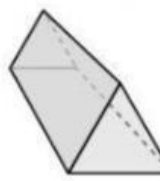

Calculate the angles in degrees. Do not try to measure, because the pictures are not exact.

1	 <p>angle AOD = <input style="width: 40px;" type="text"/></p>	2	 <p>angle AOB = <input style="width: 40px;" type="text"/></p>

GEOMETRIC MEASUREMENTS

Perimeter and Area of Triangles:

Hint:

- *Area: $1/2 \times \text{base} \times \text{height}$ - - - - (Area = $.5 \times b \times h$)*
- *Perimeter: $a + b + c$ - - - - - (Perimeter = $a + b + c$)*

Calculate the area and perimeter of these triangles

Perimeter = cm

Area = cm^2

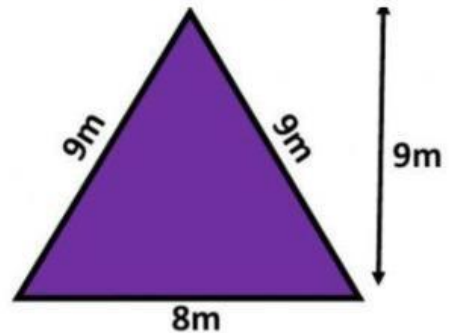

Perimeter = cm

Area = cm^2

Perimeter = cm

Area = cm^2

Perimeter = m

Area = m^2

Area of a Square:

Hint: Area = a^2

Find the area of each square.

1)

Area =

2)

Area =

3)

Area =

Volume

Finding Volume with Unit Cubes

Exit Task

Find the length, width and height of the rectangular prism. Then find the volume.

Answers

L W H V

Ex. 4 4 2 32

4.

5.

COMPUTING FOR VOLUME

The formula for getting the volume of a rectangular prism is $L \times H \times W$.
Let's practice computing for volume with the following problems. Input the right value and the unit with a space in between.

L H W

x x

Volume:

cm³

L H W

x x

Volume:

cm³

Symmetry

MATHEMATICS – LINES OF SYMMETRY

Look at the shapes below. There are two boxes below each shape. The first box is a Yes or No box (If you believe that the shape has a line of symmetry or not). You must type the number of lines of symmetry the shape has in the second box.

E.g.

Yes	1
-----	---

1. Draw the line of symmetry for each shape. 2. Write how many.

A.

<input type="text"/>

B.

<input type="text"/>

C.

<input type="text"/>

COORDINATE PLANES

Objects on a Coordinate Plane

1. (D, 4)
2. (A, 5)
3. (E, 2)
4. (F, 4)

5. Heart (,)
6. Donut (,)
7. Hat (,)
8. Star (,)

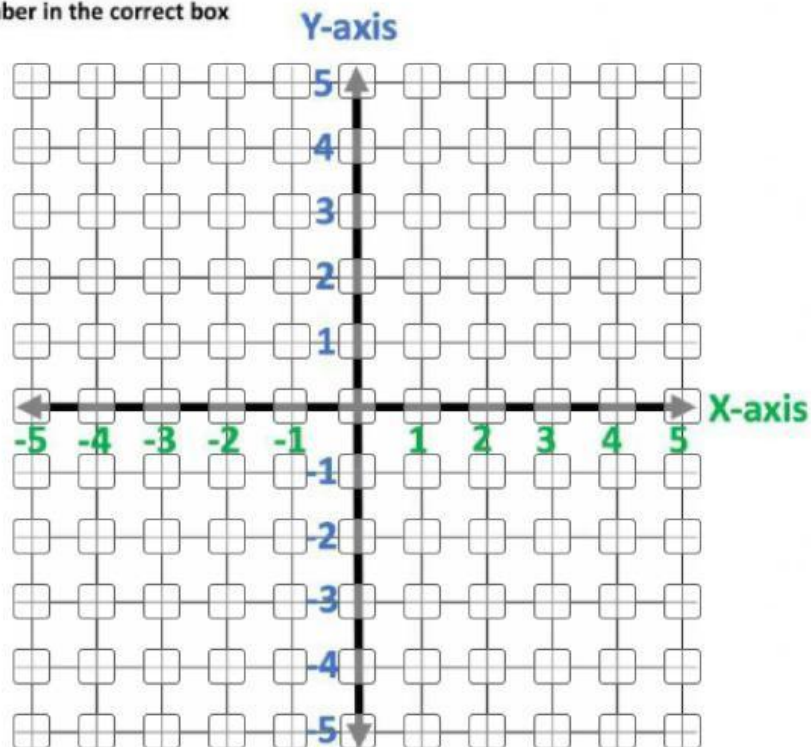

Basketball | Glasses | Car | Bookbag

Plotting Points

Plot the given points

Write the corresponding number in the correct box

1. $(-2, 0)$
2. $(-3, 3)$
3. $(4, 2)$
4. $(0, 4)$
5. $(4, -3)$
6. $(3, -5)$
7. $(0, -4)$
8. $(-2, -4)$
9. $(-1, 5)$
10. $(1, -2)$

Quadrants:

Four Quadrant Ordered Pairs

Tell what point is located at each ordered pair.

- 1) $(-5, -8)$ 3) $(-3, +6)$ 5) $(-2, -8)$ 7) $(+4, -2)$
 2) $(+1, -5)$ 4) $(+9, -4)$ 6) $(+8, -4)$ 8) $(-5, +8)$

Data and Graphs:

Our Favorite Fruit

Apple						
Strawberry						
Banana						

Key: one picture = 1 vote

1) What is the title of the graph?	Fruit	Our Favorite Fruit	Fruit we hate	<input type="text"/>
2) How many voted for banana?	1	5	2	<input type="text"/>
3) How many voted for apple?	3	6	4	<input type="text"/>
4) How many voted for Strawberry?	6	2	4	<input type="text"/>
5) How many voted total? (Count up every picture to help you figure it out!)	5	12	14	<input type="text"/>
6) How many voted for apple and strawberry altogether? (Add the apples and strawberry together!)	10	6	4	<input type="text"/>

Frequency and Tally Charts:

A teacher asked students to name their favourite subjects.

Complete the tally table by dragging the answers from the list.

-

Subject	Tally	Frequency
Art		
Dance		
Music		8
PE		4
Spanish		10
Drama		5

- a. Which subject was most liked?
- b. Which two subjects had equal votes?
- c. Which subject was least liked?

Pictographs:

Use the pictograph below to answer the following questions.

Choir

	Number of singers
Soprano	
Alto	
Tenor	
Bass	

Key:  represents 2 singers

- How many singers in the choir sing bass?
- How many sopranos are in the choir?
- How many voices are there between the altos and the tenors?
- How many voices are in the choir altogether?
- What is the ratio of bass to soprano in its simplest form?

Double Bar Graphs:

Double Bar Graph Worksheet

According to bar graph, answer the following questions.

Answers

1	How many Mango ice-cream were sold by Shop A?	<input type="text"/>
2	Which flavor of ice-cream do people like most in shop A?	<input type="text"/>
3	Find the total numbers of Chocolate ice-creams sold by shop A and shop B.	<input type="text"/>
4	Which shop sold 30 coconut ice-creams?	<input type="text"/>
5	Find the total numbers of Coconut ice-creams sold by shop A and shop B?	<input type="text"/>
6	Which flavor of ice-cream do people like the most in shop B? Chocolate or Vanilla?	<input type="text"/>

Histograms:

Directions: Use the histograms to answer the questions.

The histogram below show the number of gifts students received for their birthday.

- Most students received between ___ and ___ gifts.
 0-1 2-3 6-7
- How many students sent between 6 and 7 gifts?
 4 6 9
- How many students received between 0 and 1 gift?
 1 4 3
- If a student sent 3 gifts which bar would they be added to?
 0-1 2-3 4-5

Circle Graphs

The given Circle graph shows what children do in the weekend. The total number of children is 60.

-  - Watch TV
-  - Cycling
-  - Study
-  - Playing Outside
-  - Playing In home

- 1- What is the fraction of the children that are playing in home- ?
- 2- How many children watched T.V?
- 3- What is the fraction of the children that are studying?
- 4- What is the total fraction of the children that Watch T.V, Cycling, Study, Playing Inside, Playing Outside?
- 5- How many children are Cycling.

Check Register Practice: Starting Balance: \$876
