Read the passage. Decide if the statements are True or False (1.0 pt)

Eagles are **intelligent**, wonderful and beautiful birds. They are the king of birds. The species of eagle are found almost all over the world, they have more than sixty species. The eagles have two large and powerful wings. They can fly to a great height in the sky. The eagles have sharp eyesight which helps them to hunt prey. The eagles live in mountains and forests. They build their nests high up in tall trees or on cliff edges, safe from danger. They usually stay with the same mate for life and take turns looking after their eggs and chicks. The female eagles don't lay many eggs, they lay only three to four eggs at a time. The eagles have a lifespan of twenty to thirty years in wild and up to fifty years in captivity. They feed on small animals like rabbits, rodents, snakes, etc. The eagles are considered to be good luck and therefore they are used in many of the national flags.

19. There are more than sixty species of eagles.
20. The female eagles lay many eggs up to ten at a time
21. They usually stay with the same mate for the whole life.
