

Percentage of Numbers

Part 1: Find the percentage of each number.

a) 25% of 100

b) 17% of \$60

c) 5% of 320

d) 90% of \$720

Part 2: Word Problems

1. If the school soccer team has won 70% of its last 30 games, how many of those games did the team win?

2. A football quarterback often passes the ball. If Jeff threw 20 passes and 75% were completed, find the number of completed passes.

3. The following chart from a sports page in the newspaper shows the statistics for a local baseball league. Find the percentage of wins for each team

TEAM	WINS (W)	LOSSES (L)	TOTAL GAMES	PERCENTAGE WINS (Pct.)
Windsor	61	15		
London	42	34		
Chatham	35	40		
St. Thomas	29	49		
Sarnia	21	56
