Aktivitas 1 : Mengukur Panjang Ruas Garis dengan Ukuran Tertentu

Kerjakan soal berikut dengan baik dan benar!.

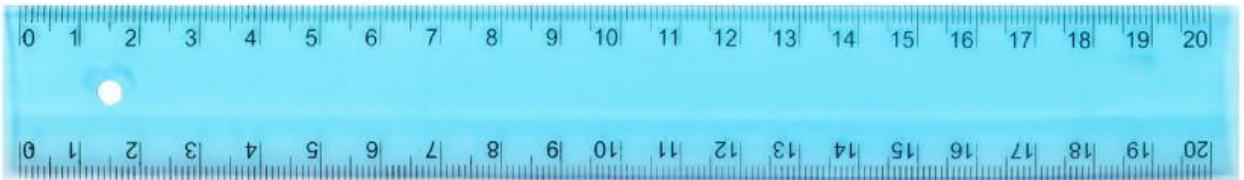

1. $AB + GH =$

$2 \text{ cm} + \square = \square$

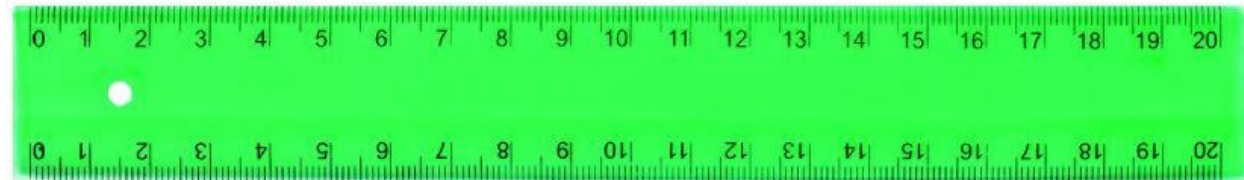

2. $CD + KL =$

$\square + \square = \square$

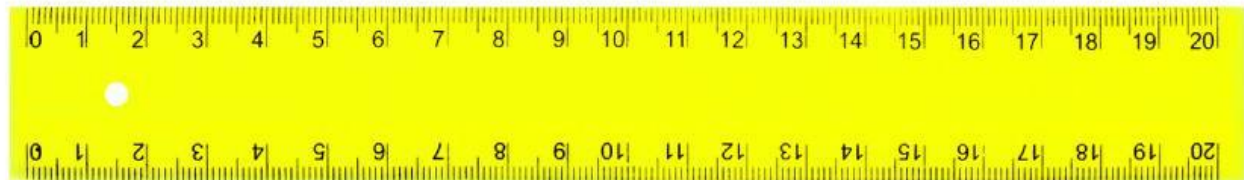

3. $GH + MN =$

$\square + \square = \square$

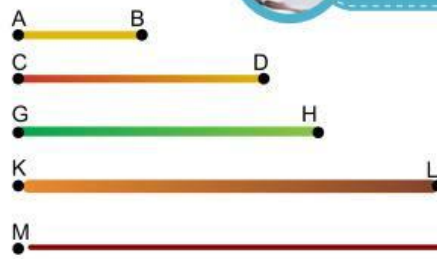

4. $KL + AB =$

$\square + \square = \square$

5. $MN + CD =$

$\square + \square = \square$

Salinlah (Tariklah) Ruas Garis diatas , letakkan ruas garis pada atas penggaris sesuai masing-masing soal, lalu hitung panjangnya!.
