You can't always choose your room, but you can choose the things inside it. Because of that, your bedroom says a lot about your personality.

And we're not only talking about your favourite hobbies or your taste in music and books. Of course, a guitar behind the door or sci-fi stories in your bookcase give people information about you, but a careful look at your bedroom can teach them a lot more than that.

The colours in your room, for example, are very interesting. Has your room got bright colours on the walls, curtains, rug or duvet? Then you probably love trying new experiences. People with pale walls are often friendly and talkative, but people with dark walls don't like meeting new people. Black and white is a popular choice for people with strong opinions.

How big is your wardrobe? A big wardrobe often means that you are into fashion, but not always. It can also be a sign that you hate throwing old things away and prefer keeping everything behind your wardrobe door. Someone with a tidy room is usually cheerful, but someone with an untidy room is moodier and often unhappy. The pictures on your walls say a lot, too. Generous people like decorating their rooms with photos of their friends and family, but if your own face is in every picture or you have more than one mirror, watch out! This shows that you are probably a bit selfish.

So, before you invite your friends into your bedroom, think carefully. What message will your bedroom give them about you?
