LITERACY: AN EMAIL

First, read carefully the next text.

When I was ten years old I lived in a town close to Madrid. My room was very beautiful:

- There was one big window on the wall  and there were green curtains  on it.
- There was a bed on the left side of the window and there was always a blue teddy bear  on it. It was my first toy.
- On the left  wall, above the bed, there was a shelf  and there were lots of book on it because I liked reading. There weren't any comic.
- On the right  wall, there was a pink desk and a chair to study. There was a lamp on the desk and there were lots of colours because I loved painting.
- There wasn't a computer on my room because there weren't computers at home at that time.
- There were always lots of toys on the carpet  because my sisters and brother always played with me in my room.

Now, draw the room described on the text.
