Wave Math Practice WS 1

Calculate the missing information using the information given.

$$v = f * \lambda \quad \lambda = v/f \quad f = v/\lambda$$

Wavelength λ (m)	frequency f (Hz)	wave speed v (m/s)
	255	331.5
0.10		330
1.2	213	
1100		330
2.9	200	
	500	375
