Design a Mob Block Adventure

Did You Know...?

You can now design, create and import your own custom block creatures or 'mobs' into the Block Adventurer game. To have them appear in your Block Adventurer world, you will need to use an online application tool. Before you do this online, why not design and craft a 3D 'mock-up' of your mob on paper first?

Name of mob:

Hostile/neutral/passive
(circle as appropriate)

Biome(s):

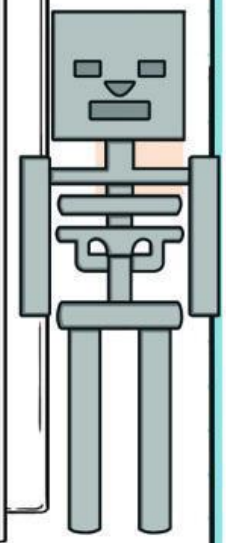

Strengths and special abilities:

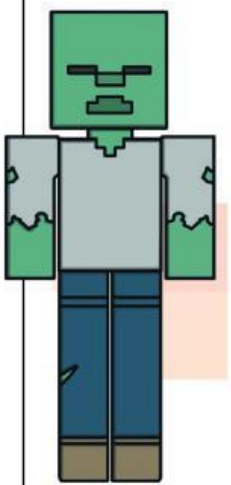

Weaknesses:

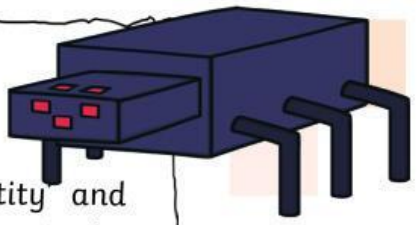

Drops:

Behaviour:

How it spawns or breeds:

What Is a Mob?

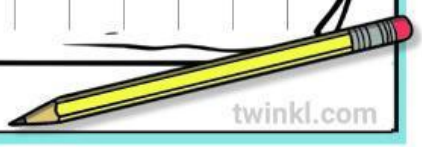

The word 'mob' is short for 'mobile entity' and refers to any animated creature that appears in the Block Adventurer world and is driven by artificial intelligence (AI). In other words, any creature that moves or behaves independently of the person playing the game.
