Emma's dad was a pilot but he wanted to be an astronaut.

Emma loved listening to her father's funny stories about amazing planets and the strange (1) that lived there.

One night, Emma couldn't sleep. She looked at all the stars through her bedroom window. 'There are (2) of them,' she thought.

'I really want to travel in space and meet an alien! One day, perhaps.'

Then (3) some lights appeared in the sky.

The lights came nearer and nearer. 'It's a spaceship!' Emma whispered.

‘Wooooow, it’s in my garden now!’ Emma ran outside but it was
(4) and difficult to see very well. Something with
a huge helmet on its head was opening a door and waving to her. Emma
began to laugh. She could see her father’s face! ‘Hello Emma,’ he said.
‘Do you like my (5) new helicopter? Come for
a ride in it! We might see a spaceship!’

(6) Now choose the best name for the story.

Tick one box.

Swans

Example

- Swans are the largest birds in the duck family. There are six different kinds swans which have white bodies, but in a few parts of the world there are black swans too. Swans are clever and remember people who have kind or unkind to them! A frightened really angry swan can break a man's leg its strong wings!
- Swans live on rivers and lakes. But in the winter months, some might live near the sea because salt water is usually a little than river water. Swans don't usually fly very far from the place they build their nests. It takes between 35 and 42 days for a baby swan, which called a 'cygnet', to break open its egg!
- A baby swan can be grey white. Wild swans usually live for about seven years, but some live a lot longer. A swan eats underwater plants. It finds these by its long neck deep into the water and its tail up into the air! Swans might eat small frogs and insects.
