

Simpangan kuartil dari 7, 4, 5, 6, 7, 4, 5, 7, 8, 9, 6 adalah ...

$$Q_1 = 5$$

$$Q_2 = 6$$

$$Q_3 = 7$$

$$\text{Simpangan kuartil} = \frac{1}{2} (Q_3 - Q_1)$$

$$\text{Simpangan kuartil} = \frac{1}{2} (7 - 5) = \frac{1}{2} \cdot 2 = 1$$
