Luton Airport fire

All planes at Luton Airport must stop. A big fire starts on Tuesday at around 9 PM. It happens in a car park.

The fire **destroys** the place. The fire is an accident. Luckily, no one is hurt. But some firefighters and airport workers must get help from a doctor. They **inhale** some smoke. The airport cares most about safety and wants to start working again soon.

The parking place holds about 1,900 cars. The fire destroys many of them. There were no **sprinklers** in the car park. People want to put them in in the future.

Part 1: Please read the news and record your voice (3 marks)

Part 2: Please match the word with the best meaning. (3 marks)
