Exercise 2: Complete the article with the future continuous or the future perfect of the verbs in brackets. DO NOT use the contracted form.

Technology is advancing so fast that by the year 2050 who knows what new technologies we (invent) It is quite likely that by 2050 we (use up) most of the earth's natural resources and so we (rely)..... on wind and solar power. As there will be a shortage of energy. It is quite likely that at that time scientists (try)..... to find a way for us to live outside the earth. Before the end of the next century, it's possible that people (live)in cities on the Moon or perhaps in cities on the seabed. By 2050 it's possible that scientists (already/discover)..... how to cure diseases such as cancer and, due to the advancement of genetic engineering, maybe hereditary diseases passed down from generation to generation (disappear)forever. It is quite possible that by 2050 life expectancy (increase) to 100 and that we (enjoy) a healthier existence.

Another area likely to have been affected by technology in the year 2050 is education. Almost all students (study) online from their homes.
