## Hammell Wins Best Actor Prize at Vellon Springs

VELLON SPRINGS (May 17)—At its awards ceremony on Sunday night, the jury of the Vellon Springs Film Festival awarded Best Actor to veteran actor Christopher Hammell. Other big winners among the 22 independent films and countless performers competing in the festival included *Shouting in the Wind* (Best Picture) and Sylvia Mathis (Best Actress for her role in *The Advance*).

Mr. Hammell won for his superb performance in *Our Fence*. Directed by Vitomir Holmwood and costarring Felicia Carlson, *Our Fence* tells the story of a retired Seattle truck driver (Mr. Hammell) who finds his quiet life interrupted when an artist (Ms. Carlson) and her

young daughter move in to the house next door. The moving film was an audience favorite and has been picked up for late summer distribution across the United States by RTY Films.

The award may represent a career comeback for Mr. Hammell, who stopped appearing in major studio-produced films about a decade ago after a string of disappointing box-office results. He has worked steadily in theater productions and smaller films since that time, but *Our Fence* is the first to gain widespread recognition.

During his acceptance speech onstage at the Vellon Theater, Mr. Hammell thanked Mr. Holmwood, Ms. Carlson, and the festival jury, and finished by saying, “It feels like I’ve been given a second chance. I can’t believe it.”

### Reviews of: Our Fence

#### “More drama than comedy” ★★★★☆

I went to see this movie because the TV commercials for it made it look really fun, but it turned out to be quite sad in some parts. I'd still give it a positive review, though. The cast was great.

Silvia Flores, Sept. 3

#### “Great job all around!” ★★★★☆

Christopher Hammell definitely earns his festival award, but I think Ebony Francis is the real talent involved in this film. I'll certainly be seeking out more of her work.

Kurt Stewart, Sept. 1

## Spray Foam Insulation

Spray foam insulation is the highest-priced type of home insulation, but it also forms the strongest barrier against heat and cold. Our customers have told us that their home energy bills dropped 50% or more after its installation. The foam comes in two types: open cell and closed cell. Open cell foam is less expensive and better at filling hard-to-reach corners, while closed cell foam provides more protection against extreme temperatures. In Mattin County, both types must be applied by a licensed expert, though a city permit for the work is only required in Vorrett. The application process rarely takes more than a day.

Dear Mr. Mackie,

We at GWI Insulation were sorry to learn that you will need to replace some of the beams and boards in your attic because of mold issues. Unfortunately, this situation is one of those explicitly excluded from your warranty, so we would need to charge you for any work that we do on your attic insulation. I have attached a scan of our copy of the warranty for your reference.

Please let us know if you would like to hire us to repair or replace your installation. While the work would not be free, we could still offer you a good price.

Sincerely,

Derek Sullivan
