

## 12.3.1 FUNCTIONAL LANGUAGE

### PROMPTING A RESPONSE AND RECALLING A MEMORY

A Listen and complete the conversation with the expressions from the box.

Prompting a response	Recalling a memory	Sharing experiences
Do you remember that time ...?	I don't recall ...	... that's like the time that ...
Don't tell me you don't remember.	... that whole period's a big vague ...	I had a similar experience once ...
	... that rings a bell.	
	It's all coming back to me now.	

**Henry** Ah ... this photo reminds me of our vacation in Brazil. We loved it there, didn't we?  
<sup>1</sup> \_\_\_\_\_ we went to the Amazon and slept in hammocks in the jungle?

**Marcela** We slept in hammocks?

**Henry** <sup>2</sup> \_\_\_\_\_

**Marcela** I remember us going to the Amazon, but <sup>3</sup> \_\_\_\_\_ sleeping in hammocks ...  
 but <sup>4</sup> \_\_\_\_\_ for me. We saw so much in such a short period of time.  
 I seem to have forgotten a lot.

**Henry** But what happened was really frightening. My hammock broke in the night, and I fell out.  
 I was terrified that I would get bitten by a snake.

**Marcela** Oh yes, <sup>5</sup> \_\_\_\_\_ . <sup>6</sup> \_\_\_\_\_

**Henry** Good!

**Marcela** Yes, <sup>7</sup> \_\_\_\_\_ on a camping trip before I met you!

**Henry** You did? You never told me that.

**Marcela** Yes, <sup>8</sup> \_\_\_\_\_ I left my tent open and a wild animal tried to get in.  
 I don't know what kind of animal it was, though ...
