Name: Class:

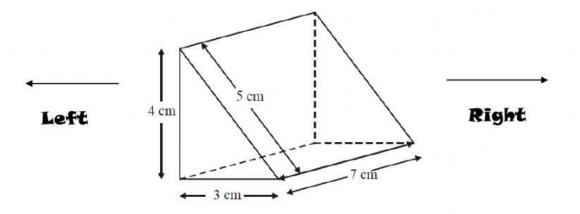

SURFACE AREA and VOLUME of 3D Shapes

1) Name of the shape:

		F 27 27 27 2	F1227 123 123
Area of bottom face:	Area of front face:	Area of left face:	Surface Area:
yd ²	yd ²	yd ²	
			yd ²
Area of top face:	Area of back face:	Area of right face:	
yd ²	yd ²	yd ²	
VOLUME			
The name of the base shape:	Area of the base: Yd2	Volume:	yd³
зпарс.		Base area \times Height	
			or
	The height of prism:	1	rea × Height

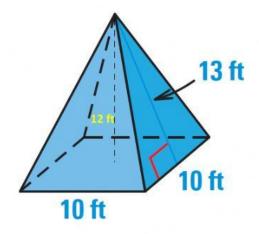

2) Name of the shape:

Area of bottom face:	Area of front face:	Area of left face:	Surface Area:
cm ²	cm ²	cm ²	
	Area of back face:	Area of right face:	cm ²
	cm ²	cm ²	
VOLUME			
The name of the base shape:	Area of the base: cm²	Volume:	cm ³
		Base area \times Height	
	The heat of a few terms	or	
	The heigh of prism:		•

3) TRUE or FALSE:

No	Statement	TRUE (T) or
		FALSE (F)
a.	The name of the solid is square pyramid	
b.	The slant height of the solid is 13 ft	
C.	The height of the solid is 14 ft	
d.	The base of the solid is a rectangle	
e.	The surface area of the solid is	
	the total area of 1 rectangle and 4 triangles	
f.	The formula to find volume of the solid is	
	Area of the base \times Height	

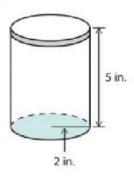

Calculate the Surface Area of the solid : ft²

Calculate the Volume of the solid : ft3

4) Tom is making strawberry jelly and is going to put it into the jar shown. About how much jelly will he need to fill the jar?

(use 3.14 for π , and round your answer to the nearest whole number)

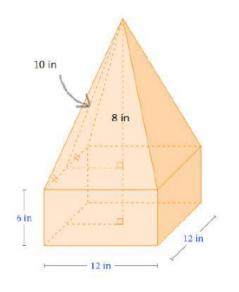

Answer:

 in^3

5) This model is formed of a pyramid on top of a prism, and its total height is 16 inches. Determine volume and surface area!

Surface Area

Surface area of pyramid: in²

Surface area of prism: in²

Total Surface area: in²

Volume

Volume of pyramid: in³

Volume of prism: in³

Total Volume: in³
