

Match the 7 Natural Wonders of the World

Paricutin

It's located in Michoacán, Mexico. It was chosen as one of the Seven Natural Wonders because it is the only volcano whose birth in 1943 was witnessed and documented by humans.

Victoria Falls

As the Zambezi River crosses the border of Zambia and Zimbabwe, it plunges 108 metres down in a stunning waterfall that is 1.7km wide.

Grand Canyon

It's located in Arizona. It is 1.8km deep and 446km long. It can be explored by hiking, rafting and helicopter.

Coral Reef

It's the home of Nemo and it is made up of more than 2,900 individual reefs constructed by billions of miniscule coral polyps, which are living organisms.

Northern Lights

Naturally-occurring lights intrigue everyone who sees them appear as glowing lines of vivid colour along the horizon or waves across the sky.

Mount Everest

Is known as the highest spot on earth, at 8,848 metres above sea level. It is located right on the border between Nepal and Chinese-owned Tibet

Harbor of Janeiro

It is located in Brazil and is surrounded by unique granite mountains that were formed by erosion from the Atlantic Ocean.
