Read text and answer the questions.

Junk food is very harmful because it slowly destroys the health of our young children. The word itself gives an impression that it is not healthy and dangerous to our body. As it tastes so delicious, people become addicted to eating it on a daily basis. Advertisement on social media showing mouth-watering junk foods do not spread the correct message to audience on the harmful effects of junk food.

The problem is more serious than you think. Various studies show that junk food impacts our health negatively. They contain higher level of calories, fats and sugar. On the contrary, they have very low amounts of healthy nutrients and lack dietary fibres. Parents must discourage their children from consuming junk food because of the ill effects it has on one's health.

The amount of calories your body requires to stay fit is not fulfilled by this food. For instance, foods like French fries, burgers, candy and cookies, all have high amounts of sugar and fats. Therefore, this can result in long-term illness like diabetes and high blood pressure. This may also result in kidney failure. So, it is important not to indulge in too much junk food because there are many long-term side effects.
