IELTS WRITING- Discuss both views

Topic: ENVIRONMENT

Explain some of the ways in which humans are damaging the environment. What can governments do to address these problems? What can individual people do?

A. INTRODUCTION

Fill in the gaps, using the given words:

Address Forces Environmental Earth Damage

Since several _____ problems have been caused by humans' _____, we need to act responsibly to reduce the _____ that we are doing to the _____. This essay will explain environmental problems and what governments and individuals can do to _____ these problems.

B. BODY

Rearrange the sentences in each paragragh

Body 1:

1. In addition, the increase in human population comes along with a huge quantity of waste, which contaminates the earth and pollutes rivers and oceans.

2. Global warming, which is well-known as a global issue because of its devastating effect on the environment, is a result of gas emissions from factories and exhaust fumes from vehicles.

3. Two of the threats to the environment are air pollution and waste.

Body 2:

1. Second, they could also innovate the public transport system to become more convenient and greener.

2. By this way, governments can encourage people to take public transport instead of driving, therefore reducing emissions.

3. On one hand, governments could reduce air pollution in many ways. First, they could introduce laws to put a limit on factories' gas emissions or force companies to use renewable energy in production.

Body 3:

1. Also, people should purchase reusable products and recycle as much as possible to avoid releasing too much waste.

2. They can take buses and subways or other means of public transportation rather than driving, which could reduce the amount of exhaust fumes from vehicles.

3. For example, Vietnamese people are recommended to use reusable or paper bags when going shopping instead of plastic bags to cut down on plastic bags consumption.

4. On the other hand, individuals should also be responsible to lower down pollution level in their surroundings.

C. CONCLUSION: Correct the mistakes

In conclusion, both national governments or individuals must be understood the harmful impact they have on the environment and responsible to ease damage.
