

1. Listen and complete the conversation between a nurse and a paramedic.

Nurse: What do we have?

Paramedic: The patient is a fifty-two-year-old female. 1) a lot of blood.

Nurse: How is her 2) ?

Paramedic: It 3) a lot at first. But she seems better now.

Nurse: That's good. What about her pulse?

Paramedic: That gave us some trouble, too. Her heart rate 4) during transport. So, we performed CPR.

Nurse: But it sounds like she 5) .

Paramedic: Yes, she did. Her pulse and respiration rates are now 6) . But she's still unconscious.

Nurse: Okay, thanks. We'll take it from here.
