Hi San,

How's everything? I remember the last time we wrote to each other was last July. I finished my final examination a week ago and now I have the time to write to you. You know! I was so happy with the results. I passed all the tests. I even got an A in math, my favorite subject. But Spanish, history, and science grades were not that high. My mom looked a bit disappointed. But my dad wasn't upset about my grades in those subjects. He even said I did a good job. But I did not feel the same way as my parents. I told myself I needed to try more in my next tests to make them pleased. How about you? Can you tell me about your studies?

I hope to hear from you soon.

Have a lovely weekend!

Hi John,

I was happy to read your letter. Everything is going well now, but I was really busy with my studies at my school. I got a lot of projects to work on, did a lot of homework, and took different tests for a week. I was so happy with my test results because I received high marks on all of them. It could be because I changed the way I studied. I chose to work in groups and got practice every day.

Last week, my mother bought me a new bike as a reward. She was so pleased with my test results. That was the most I could do to make her happy. I hope to get all As in my upcoming exams. Do you want to discuss how to study for exams in our next letter?

Write back soon,

San
