Online friends

Most teenagers have smartphones now. Thanks to the Internet, they can talk to friends from all over the world. Chiara and Jared are online friends - they tell us how they use their smartphones.

Chiara: I'm Italian and I live in Rome. I usually use my smartphone to go online and to text my friends. I sometimes download music to my phone and listen to it on my headphones. I often use my smartphone to chat with my classmates and take photos for our school project as well. I never take selfies – I think they're boring! Right now I'm using my smartphone to chat with Jared – we usually meet online once or twice a week.

Jared: I'm English and I live in Leeds. I don't like calling my friends on my smartphone – I prefer to text them. I often play games on my smartphone or read e-books – the screen is small so I can do it on the bus on my way to school. At home, I often go online to look for information for my school projects. Right now I'm chatting to Chiara – she's my online friend from Italy. I'm asking her to watch a new video from my favourite band!
