Speaker 1:

"I live in a tall building in the middle of the city. My apartment is on the 20th floor. It's small but cozy. I have a kitchen with a dishwasher and a fridge. My living room has a big table where I often work. I love the view of the city from my window.

Speaker 2:

"Our family has a house outside the city. It's not too big, more like a small cozy place. We have a lovely garden and a little cottage at the back where we sometimes have guests stay. Our kitchen is the heart of the house, equipped with a sink and a cooker. There's also a bathroom and two bedrooms."
