MAPEL BAHASA INGGRIS

I. Read the text carefully then answer the questions based on the text!

Hi, I am Kenjiro. I am from Japan but I live in Indonesia now. I want to tell about the seasons. There are two seasons in Indonesia. They are dry and rainy season. Dry season lasts for six months. It is April to September. The weather is dusty. The sky looks clear and the leaves start to fall in this season. While rainy season lasts for six months. It is from October to March. The rain falls everyday in this season. Different from Indonesia, Japan has four seasons. They are spring, summer, autumn, and winter. From those seasons, I like spring because the wather in spring is nice. The flowers start to bloom. Everything turns into green. In this season, I usually play at the park with my friends. In the park, I can see many beautiful birds fly freely.
