

# 11.DATA HANDLING

Name of the Student: \_\_\_\_\_

Class: II

Collect the data of the number of fruits in the given tabular column:

| Fruit                                                                               | Number of given fruit |
|-------------------------------------------------------------------------------------|-----------------------|
|  |                       |
|  |                       |
|  |                       |
|  |                       |
