

Escribe en los espacios los números que completan la multiplicaciones.

$6 \times \underline{\quad} = 60$

$\underline{\quad} \times 9 = 36$

$15 \times \underline{\quad} = 45$

$12 \times \underline{\quad} = 36$

$13 \times \underline{\quad} = 39$

$6 \times \underline{\quad} = 54$

$\underline{\quad} \times 10 = 90$

$\underline{\quad} \times 10 = 100$

$5 \times \underline{\quad} = 25$

$\underline{\quad} \times 9 = 54$

$\underline{\quad} \times 4 = 16$

$\underline{\quad} \times 8 = 64$

$7 \times \underline{\quad} = 49$

$\underline{\quad} \times 8 = 72$

$\underline{\quad} \times 8 = 56$

$6 \times \underline{\quad} = 60$

$\underline{\quad} \times 9 = 18$

$8 \times \underline{\quad} = 48$

$6 \times \underline{\quad} = 30$

$\underline{\quad} \times 9 = 81$

$\underline{\quad} \times 6 = 42$

$8 \times \underline{\quad} = 80$

$30 \times \underline{\quad} = 0$

$7 \times \underline{\quad} = 63$

$\underline{\quad} \times 6 = 24$

$\underline{\quad} \times 8 = 32$

$9 \times \underline{\quad} = 90$

$\underline{\quad} \times 8 = 40$

$7 \times \underline{\quad} = 35$

$\underline{\quad} \times 6 = 36$

$\underline{\quad} \times 7 = 0$

$7 \times \underline{\quad} = 21$

$\underline{\quad} \times 9 = 45$

$\underline{\quad} \times 7 = 7$

$8 \times \underline{\quad} = 16$

$6 \times \underline{\quad} = 18$

$\underline{\quad} \times 4 = 32$

$6 \times \underline{\quad} = 0$

$4 \times \underline{\quad} = 28$

$\underline{\quad} \times 7 = 42$
