Come With Us

There's no need _____ lonely
I know where you belong, yeah, follow me
You only have _____ me
No matter who you are or what you see

You're a bird in a cage, _____ the day
_____ the morning
But don't be afraid, we're coming your way
Wait for the _____

Come with us
If you give us all your money
We'll give you your dreams
It's all soft focus
You'll never want _____ away
Once you release control
You'll be lost in a fantasy
'Til your soul is lost
You'll be longing _____
Longing _____ with us

Find out what you can be (can be, can be)
And know that you'll surrender, fate unknown
Welcome to the family (family, family)
Open up the door, make yourself at home

Sign away your life to us
And then throw yourself to the falling
You don't _____ to be afraid
C'mon, this is the calling

Come with us
In a hazy frame of mind, you'll believe this stuff
It's all soft focus
You'll never want to turn away
Under electric stars
You'll be _____ your fantasy
And from dawn to dusk
You'll _____ to run
Longing to come with us

Come with us

And from dawn to dusk
Come away with me
Come away with me
C'mon, come with us
In a hazy frame of mind, you'll _____
