Read the following passage then choose the best answer to each question below.

Niagara Falls, one of the most famous North American natural wonders, has long been a popular tourist destination. Tourists today flock to see the two falls that actually comprise Niagara Falls: the 53-meter high Horseshoe Falls on the Canadian side of the Niagara River and the 55-meter high American Falls on the U.S. side of the river.

Most visitors come between April and October, and it is quite a popular activity to take a **steamer** out on to the river and right up to the base of the falls for a close-up view. It is also possible to get a spectacular view of the falls from the strategic locations along with the four observation towers which have heights up to 500 feet.

Tourists have been visiting Niagara Falls in a large number since the 1800s. Because of concern that a large number of tourists would destroy the natural beauty of this scenic wonder, the State of New York in 1885 created Niagara Falls Park in order to protect the land surrounding American Falls.
