IT'S ALL OVER FOR

Your bottle's almost _____
You know this can't go on
Because of you my _____ is always racing
The needle's breaking your _____
The _____ is sinking in
And now your trip _____ but it's all over for
It's all over for

You, for you
When you're on the edge and falling off
It's all over for you
For you
When you're on the edge and falling off
And it's all over

I know what runs through your _____
You do this all in _____
Because of you my mind is always racing
And it gets under my _____
To see you _____ in
And now your trip begins but it's all over for
It's all over for

You, for you
When you're on the edge and falling off
It's all over for you
For you
When you're on the edge and falling off
It's all over

And now you're _____ inside
Still you wonder why (it's all over)
And now you're dead inside
Still you wonder why (it's all over)

And now you're dead inside
Still you wonder why
When you're on the edge and falling off
It's all over for you
And now you're dead inside (you)
Still you wonder why
When you're on the edge and falling off
It's all over for you

And now you're dead inside (you)
Still you wonder why (it's all over)
