

Name:

UNIT 4

Look at the pictures and circle the correct words

1

closed / open

2

mixture/ plastic bags

3

sugar/ salt

4

salt/ cream

5

closed / open

6

pour/ freezer

Read and circle True or False

- | | | |
|--|-------------|--------------|
| 1. Sugar is a liquid. | TRUE | FALSE |
| 2. I can pour plastic bags. | TRUE | FALSE |
| 3. Plastic bags can be containers. | TRUE | FALSE |
| 4. A mixture has only one thing in it. | TRUE | FALSE |

Read and answer the questions.

Let's make Ice Pops!

It's summer. David and Lesley play ball in the park. They run a lot and they're hot, so they go home.

"Can we have some cold soda, Mom?" say David and Lesley. "No, kids," says Mom. "Soda isn't healthy. But I have an idea. Let's make ice pops!" she says. "Get some juice, and add some fruit and a little sugar. Mix it all together, pour the mixture into plastic cups, and put them in the freezer." "OK, Mom," they say.

David and Lesley eat the cold ice pops. "Were they good?" asks Mom. "Yes, they were delicious!" they say. They're happy.

Question 1: Is it a cold day?

->

Question 2: Where do David and Lesley play ball?

->

Question 3: Why don't they have soda?

->

Question 4: How many things are in the ice pop mixture?

->

Question 5: How does the mixture change in the freezer?

->

Question 6: Was their mother's idea a good idea? Why?
Why not?

->

Read the passages again and write the effects.
