Surface Area of 3D Shapes

Name/ Class: Date:

Look carefully the 3D shapes below, complete the net of 3D shapes with its measurement and determine the surface area!

1.

Area A = **in²**

Area B = **in²**

Area C = **in²**

Area D = **in²**

Area E = **in²**

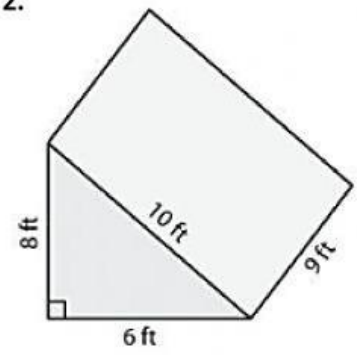

Area F = **in²**

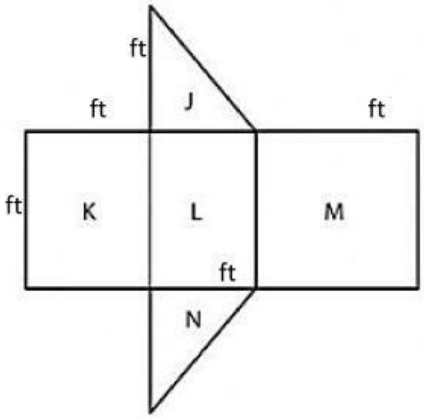

Surface Area = Area A + Area B + Area C + Area D + Area E + Area F

Surface Area = + + + + +

= in²

2.

Area J = **ft²**

Area K = **ft²**

Area L = **ft²**

Area M = **ft²**

Area N = **ft²**

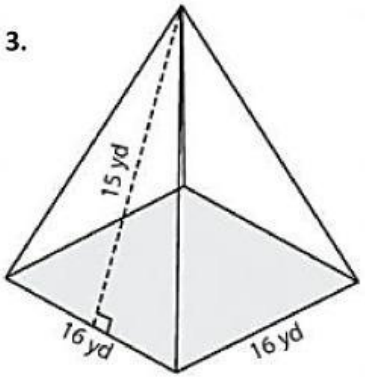

Surface Area = Area J + Area K + Area L + Area M + Area N

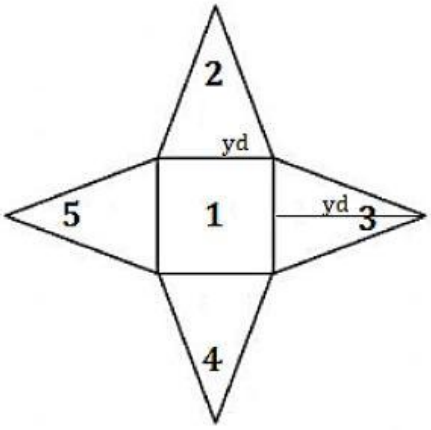

Surface Area = + + + +

= ft²

LIVEWORKSHEETS

3.

Area 1 = yd^2

Area 2 = yd^2

Area 3 = yd^2

Area 4 = yd^2

Area 5 = yd^2

Surface Area = Area 1 + Area 2 + Area 3 + Area 4 + Area 5

Surface Area = + + + +

= yd^2
