2 Choose the correct options (a–c) to complete the text.

Cloud technology has changed the way we store information. The 'cloud' is a massive, distant computer ¹ _____, which can store a large amount of your files. You can then ² _____ the cloud from any computer, and ³ _____ technology means you can do this while in a café, hotel or airport. Many people use the cloud to make a ⁴ _____ of their files, in case something happens to their computer. It's convenient, but is it safe? Naturally, you will need to enter a personal ⁵ _____ to manage your account. However, there's more to consider. Experts say that cloud providers have excellent security, but they're not perfect. The people who run cloud services look after your files. What if they make a mistake at work that they can't ⁶ _____? Because of this, it's best not to put all your data on the cloud – just what you might need when you're away from home.
