Describing charts

Graphs and charts can *show* facts:

We use *indicate* when we want to draw a conclusion about the figures in the charts:

These figures **indicate** that the company is growing in size each year.

We use *illustrate* to refer to evidence or proof of something:

We do not use *demonstrate*, *display* or *tell* to describe a chart. Compare the following:

Describing figures

If figures go up, we use *increase* or *rise*: Temperatures **rose** in May.

If the figures go down, we use *decrease* or *fall*: The number of bats **fell** in 2004.

If the figures stay the same, we use *remain steady* or *show little/no change*: The figures **show little change** since 2001.
