Colour

Example

It is difficult to think of a world without colour, but try for a minute! There aren't beautiful rainbows to look at. You can't choose wear a yellow T-shirt or a blue T-shirt. You can't see the beautiful pink, purple, orange and red colours the sky when the sun down every evening. What a different world! The colours of light are different from the colours of paint. you mix red, green and yellow light together, they make white light. you get brown when you mix red, green and yellow paint together.

Colour is very important to of us. Red can make people and animals think is 'dangerous'. Drivers stop when they see a red light and hungry birds don't eat insects with red wings. Different colours can make you like or hate food too.

..... you like to eat blue potatoes or drink black milk? People have different favourite colours too.

..... is yours?

Example

There's a new teacher at school and we had our first science lesson with him today.

1 His name is Mr Hill and makes science very interesting.

Emma and Sophia didn't enjoy the lesson because Mr Hill

2 ten questions on the board and they didn't know any of the answers. But I think he's nice!

3 He told us lots things about the planets and about our moon and sun.

We watched a short DVD in his class too. It was about the first rocket

4 flew in space.

5 I think I'd to be an astronaut one day.
