

Turtles **are** reptiles.

They lay eggs and have cold blood.

Turtles can be brown, grey or green.

They have **a** hard beak.

Some turtles have webbed feet and other turtles have flippers.

Their flippers and webbed feet help them swim.

Turtles eat plant, jelly fish, insects and worms.

Turtles live on **the** land and in **the** sea.

Did **you** know that turtles
move very slowly on land but
they can swim quickly in **the**
sea?

Turtles can hide from predators inside their shells.

They **pull** their head and legs inside **the** shell.

Turtles can see and smell very well.

Turtles **are** special.

Some turtles are endangered and **we** must **all** work **together** **to** protect them.
