- 2:41 *When things break or things don't go your way, it's always really important to remember you're in the **green** / **dream**. The experience is being out here and enjoying being out here. Everything else is **above us** / **a bonus**, so you can't get too serious if one thing breaks.*
- 2:58 *I don't know too many places in the world where you can stand on a boat looking back, and you can just see ocean leading into forest leading into massive snow-capped mountains and **nature-shaped** / **glacier-shaped** bays with pristine rivers and clear water. The trees are as they were 200 years ago, and the people that I bring out here, they get to experience this nature as it was and as it should be. And we try to keep the area and the environment **prestige** / **pristine** in this little **corner** / **quarter** of New Zealand.*
