

Circumference  
of a Circle

$$C = 2\pi r$$

$$C = \pi d$$

d = diameter

**Perimeter of a semicircle**  
Half the original circle's circumference **plus** the diameter.

$$C = 2\pi \cdot r \quad C = \pi \cdot d$$

$$P = \frac{1}{2} (2\pi \cdot r) + d$$

$$P = \pi r + d$$

$$P = \pi r + 2r$$

Find the circumference of each circle. Round your answer to the nearest tenth. (use  $\pi = 3.14$ )

Circumference = \_\_\_\_\_ ft

Circumference = \_\_\_\_\_ in

Circumference = \_\_\_\_\_ in

- Find the length of the plastic strip required to "x" around the corner of a circular plate with a radius of 14.5 in. (use  $\pi = 3.14$ )

- An iron rod of length 10.38 ft is bent to form a circle. What is the radius of the circle?

- A circular paddy field has a circumference of 89.18 yd. Find its diameter.

- The tip of the minute-hand travels 70.96 in in one hour. Find the length of the minute-hand.

- The circumference of a semicircle is the sum of half of the given circle's circumference plus the diameter of the circle.

a) TRUE

b) FALSE

- What is the perimeter of a semicircle with a diameter of 7 cm?

\_\_\_\_\_

- If the perimeter of a semicircle is 36 units, then find the radius.

\_\_\_\_\_

- calculate the circumference of a semi-circle whose diameter is 8 units.

- For a vehicle having wheels of radius 24cm find the distance covered by it in one complete revolution of wheels.

\_\_\_\_\_

- What is the radius of the semicircle if its perimeter is 144 units? (Use  $\pi = 3.14$ )

\_\_\_\_\_

A semicircular pond has a diameter of 8 ft.  
What is the perimeter of the pond to the nearest foot?

Perimeter of the pond is \_\_\_\_\_.

A semicircular mirror has a radius of 10 inches.

What is the perimeter of the mirror?

*Give your answer to 1dp*

Perimeter of the mirror is \_\_\_\_\_.

The arch below is made of two straight sections and a semi-circle. Work out the perimeter of the arch.

*Give your answer to 1 decimal place.*

Perimeter of the arch is \_\_\_\_\_.

A running track is made up of 2 semi-circles at either end and a rectangle in the middle (see diagram below).  
What is the perimeter of the track to the nearest yard?

Perimeter of the track is \_\_\_\_\_.
