

Знайди значення виразів за схемами.

$7 + 3 - 2 = \dots - \dots = \dots$	$9 - 3 + 1 = \dots + \dots = \dots$
$2 + 4 - 6 = \dots - \dots = \dots$	$3 + 6 + 1 = \dots + \dots = \dots$

Пригадай склад числа 10. Віднови рівності.

10	5	1	8	2	9
	3	7	6	4	

$5 + \square = 10$

$\square + 3 = 10$

$1 + \square = 10$

$\square + 7 = 10$

$8 + \square = 10$

$\square + 6 = 10$

$2 + \square = 10$

$\square + 4 = 10$

$10 - 5 = \square$

$10 - \square = 3$

$10 - 1 = \square$

$10 - \square = 7$

$10 - 8 = \square$

$10 - \square = 6$

$10 - 2 = \square$

$10 - \square = 4$

Додай і відними число 4 різними способами за схемами.

$5 + 4 = 5 + \square + \square = \square + \square = \square$ $\begin{array}{l} \diagup \\ 3 + \square \\ \diagdown \end{array}$
$5 + 4 = 5 + \square + \square = \square + \square = \square$ $\begin{array}{l} \diagup \\ \square + \square \\ \diagdown \end{array}$
$5 + 4 = 5 + \square + \square = \square + \square = \square$ $\begin{array}{l} \diagup \\ \square + \square \\ \diagdown \end{array}$

$5 - 4 = 5 - \square - \square = \square - \square = \square$ $\begin{array}{l} \diagdown \\ 3 + \square \\ \diagup \end{array}$
$5 - 4 = 5 - \square - \square = \square - \square = \square$ $\begin{array}{l} \diagdown \\ \square + \square \\ \diagup \end{array}$
$5 - 4 = 5 - \square - \square = \square - \square = \square$ $\begin{array}{l} \diagdown \\ \square + \square \\ \diagup \end{array}$
