Sophie I'm learning to play the piano right now, so when I need a break from studying, I just sit down and play something. I'm not very good at it, so my brother usually tells me to stop! But I still enjoy trying!

Ben I can sometimes look at the same page in my book for an hour, and I haven't remembered anything! When that happens, I put my books away and go for a bike ride. When I get back, it's easier to concentrate.

Clara I often play my favorite video game when I want to relax. I love games that teach me something, like history. I hate the ones with people fighting! I always feel less stressed out after having time for myself.

Alejandra You know when your head feels like it is just too full of "stuff"? That's when I go to bed and read a book for fun. Sometimes I don't read but just go to bed at 8:00 p.m.! It's completely the opposite of my brother Max – he never wants to go to bed! It really helps me relax, though.

Mark When I need to relax, I put on my headphones and play my drums. I play them as loud as I want. It's relaxing and really good exercise. You should try it! If you don't have drums, do something else creative. I think doing something creative is important when you're stressed out.
