Manufacturing and Engineering

12.3 Write below the words that you underlined in each sentence. Keep the words in the correct order.

1.	2.	3.

12.4 Match three verbs (one from each column) with a similar meaning. They are all typical activities of an engineer. I have given you the word from the first column; add only the words from columns two and three.

Column 1	Column 2	Column 3
analyze		
construct		
determine		
implement		
monitor		
eliminate		
evaluate		
manage		
repair		
simulate		

The verbs in the third column are more _____.
