

Name: _____

Date: _____

BUILD UP THREE TIMES TABLE

There are 3 oranges on each plate. Find the total in each row by counting on from the previous total.

	3	$1 \times 3 = 3$
	$\underline{\quad} + \underline{\quad}$	$\underline{\quad} \times \underline{\quad} = \underline{\quad}$
	$\underline{\quad} + \underline{\quad} + \underline{\quad}$	$\underline{\quad} \times \underline{\quad} = \underline{\quad}$
	$\underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad}$	$\underline{\quad} \times \underline{\quad} = \underline{\quad}$
	$\underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad}$	$\underline{\quad} \times \underline{\quad} = \underline{\quad}$
	$\underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad}$	$\underline{\quad} \times \underline{\quad} = \underline{\quad}$

$$\underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} + \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} + \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

Skip count by 3 and write the total in the box.

a) How many cherries are there in all?

b) How many tennis balls are there in all?

c) How many curry puffs are there in all?

d) How many flowers are there in all?

Date: _____

BUILD UP FOUR TIMES TABLE

There are 4 apples on each plate. Find the total in each row by counting on from the previous total.

	4	$1 \times 4 = 4$
	$\underline{\quad} + \underline{\quad}$	$\underline{\quad} \times \underline{\quad} = \underline{\quad}$
	$\underline{\quad} + \underline{\quad} + \underline{\quad}$	$\underline{\quad} \times \underline{\quad} = \underline{\quad}$
	$\underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad}$	$\underline{\quad} \times \underline{\quad} = \underline{\quad}$
	$\underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad}$	$\underline{\quad} \times \underline{\quad} = \underline{\quad}$
	$\underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad}$	$\underline{\quad} \times \underline{\quad} = \underline{\quad}$

$$\underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} + \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} + \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

Skip count by 4 and write the total number in the box.

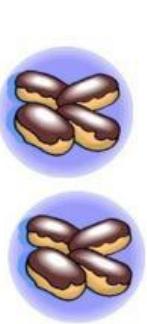

a) How many chocolates are there in all?

b) How many pencils are there in all?

c) How many eclairs are there in all?

d) How many cupcakes are there in all?
