

Choose the right answer below by marking a, b, c or d. (pilihan ganda)

Level Cognitive L2 (C1): Students can **identify the structure** in sentence.

1. Sarah: "Mom, why do we always have to clean up the house?"

Mom: "Well, Sarah, keeping the house clean and tidy helps us stay organized and healthy. It's important for our well-being."

What is the main purpose of tidying up the house regularly?

- a) To attract more pests and insects
- b) To make it difficult to find things
- c) To maintain cleanliness and order
- d) To increase clutter and messiness

2. After breakfast, Tom noticed that the floor in the living room was covered in crumbs and dirt from last night's party. He grabbed a broom and started sweeping, making sure to reach every corner.

What cleaning tool is commonly used to sweep dirt and debris from the floor?

- a) Mop
- b) Vacuum cleaner
- c) Broom
- d) Sponge

3. Emily: "Dad, where does all the stuff we recycle go?"

Dad: "Well, Emily, when we recycle paper, plastic, and glass, it gets turned into new products. This helps reduce waste and protect the environment."

What should you do with recyclable items like paper, plastic, and glass after using them?

- a) Throw them in the trash
- b) Compost them in the backyard
- c) Donate them to charity
- d) Take them to a recycling center

4. Jason was cleaning out the garage when he found old cans of paint and expired cleaning supplies. Remembering what his mom had told him, he gathered them up carefully and placed them in a box to take to the hazardous waste disposal site.

Why is it important to properly dispose of household chemicals and hazardous materials?

- a) To make the house smell better
- b) To save money on cleaning products
- c) To prevent pollution and protect the environment
- d) To attract wildlife to the area

Choose the right answer below by marking more than one answer. (pilihan ganda kompleks)

Level Cognitive L2 (C2): Students can **analyse and detect** to decide kind of hobby based on the text.

John and his family decided to spend their weekend cleaning their house. They divided tasks among themselves. John was responsible for vacuuming the carpets, while his sister, Emily, was in charge of cleaning the windows. Their parents tackled the kitchen and bathroom. As they worked, they found many old items they no longer needed. John and Emily decided to donate some of their old toys to a local charity, while their parents sorted through old clothes to give away to those in need.

Questions:

1. What tasks were assigned to each family member during the house cleaning?

- a) John - Vacuuming the carpets
- b) Emily - Cleaning the windows
- c) Parents - Sorting through old clothes
- d) Parents - Tackling the kitchen

2. How did John and Emily decide to deal with the old items they found during the cleaning?

- a) They threw them away.
- b) They decided to keep them for sentimental reasons.
- c) They donated some old toys to a local charity.
- d) They sold the items in a garage sale.

3. What was John's responsibility during the house cleaning?

- a) Vacuuming the carpets
- b) Cleaning the windows
- c) Sorting through old clothes
- d) Tackling the kitchen

4. Which areas of the house did the parents focus on during the cleaning?
 - a) Kitchen
 - b) Bathroom
 - c) Living room
 - d) Bedrooms

Choose **Correct** / **Incorrect** in these sentences below! (benar salah)

Level Cognitive L2 (C2): Students can **choose and observe** a statements based on the choice.

- | | |
|--|--------------|
| 1. John is cooking dinner in the kitchen. | True / False |
| 2. She am watching TV right now. | True / False |
| 3. The children are playing in the park at the moment. | True / False |
| 4. They aren't studying for the exam this weekend. | True / False |
| 5. We are going to the cinema tomorrow. | True / False |

Pair it with the appropriate sentence! (Menjodohkan)

Level Cognitive L2 (C3): Students can **translate and decide** the meaning of the statements.

1. Match the study habit with its description:
 - a) Taking breaks
 - b) Using flashcards
 - c) Setting goals
 - d) Organizing notes
 - i. Writing down what you want to accomplish before studying.** (.....)
 - ii. Dividing study sessions into shorter periods with rest intervals.** (.....)
 - iii. Creating small, concise study aids for memorization.** (.....)
