

Simple Plan

Slow Motion

N.Belote

Slow, slow motion
My head ____ racing everywhere
____ like I'm standing in Times Square
I'm a runaway train, ____ know what to do
I never know which way to steer
Someone get me out of here
I thought that there was no way out 'til I saw you
Oh, I never knew, never knew you could feel this
way
Now I'll never be, never be, never be the same
No, I will never be the same
My world ____ standin' still
Time's frozen, I get chills
This feeling's so surreal
I ____ wanna let go
There's magic in the air
I can't breathe but I don't care
When you walk in, I swear
It's like everything moves in slow, slow motion
Everything moves in slow, slow motion
It's like you're on a movie screen
____ see you walkin' in the scene
Everybody fades away except for you
And now you're headin' straight for me
And all of a sudden, I can't speak
Never in my wildest dreams could this be true
Oh, I never knew, never knew you could feel this
way
(I never knew you could feel this way)
Oh, I'll never be, never be, never be the same
No, I will never be the same
My world is standin' still
Time ____ frozen, I get chills
This feeling's so surreal
I don't wanna let go
____ magic in the air
I can't breathe but I don't care
When you walk in, I swear
____ like everything moves in slow, slow motion
Everything moves in slow, slow motion
Everything moves in slow
