M: Hi, Jane! Have you heard about the new laws to help recycle?

W: I heard about them on the news last night. I don't think I like them.

M: The government wants to keep the environment clean by recycling paper,, and glass instead of throwing these things away.

W: But who wants to pay an extra 50 cents each time you buy a cup of coffee? That's a lot of money!

M: 50 cents? It's only five cents extra for a paper cup.

W: I thought it was 50 cents!

M: No, it's only five cents. Don't worry. And you can get your moneywhen you return the cup.

W: That's fair. Well, maybe the government is right, after all. I'll return all the paper coffee cups I use from now on.

M: Good! We all need to It helps to keep the environment clean

We are often late for school.

My friends laugh at me because I don't have expensive clothes.

My mother has got a terrible headache.

I don't understand how to give advice in English.

My brother gets very bad marks at school.

We're going to write a Maths test tomorrow.

My sister can't swim and she wants to go to Greece next summer.

I always feel tired.

My friends love eating and they're very fat.

I want to buy some new clothes but I haven't got any money.

III. Read and answer.

Ira : Miss, why do we have to recycle? And what are the ways on saving the environment?

Miss Athirah : Okay the purpose of recycling is to **conserve energy, help the environment, reduce pollution, slow global warming and reduce waste products in landfills**. So you have to recycle in order to save the environment. These are the ways. First, **switch off and unplug all electrical gadgets when not in use to save on power consumption**. Next, **switch to energy efficient lights. Fluorescent or LED light bulbs last longer and use less electricity than conventional bulbs**. You can also collect rain water and use it for water plants, clean drains and porches. **Collecting rain water helps to conserve water and save water bills**. Last but not least, **please avoid using disposable items**. You can use your own plastic bag and reduce the amount of waste going landfills. That's all the ways that you need to know in order to save the environment. Do you understand Ira?

Ira : Whoa, yes Miss! I understand, thank you!

1. What is the purpose of recycling?

2. What are the ways to recycle?

3. Suggest 2 more ways to recycle.
